## Pattern

A pattern is a repeated image used to create a decorative design.

They can be made from simple lines, from shapes, or from pictures, from one colour, or lots of colours, but they always repeat. Here are some examples of patterns.

Do you know what any of these patterns are called? Write the names in the boxes.

## Patterns

In a pattern, if you look at what is already there, you can tell what is going to come next.

Can you continue the patterns below?

Have a go at making a pattern of your own.

## Patterns in our collection

In the Williamson Art Gallery we have lots of paintings and objects which include pattern.

Here are some examples of paintings from our collection.

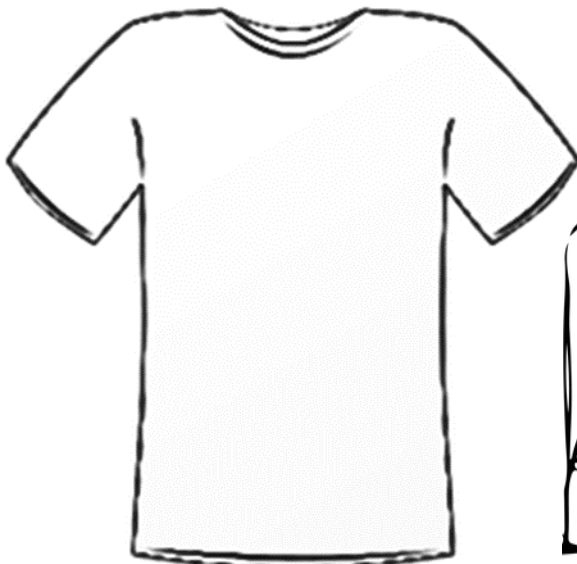

Use them to inspire your own patterns.

Sarah by Alison Mary Allnutt.

This artist has used pattern for Sarah's jumper and hat.

Use pattern to decorate this T shirt.

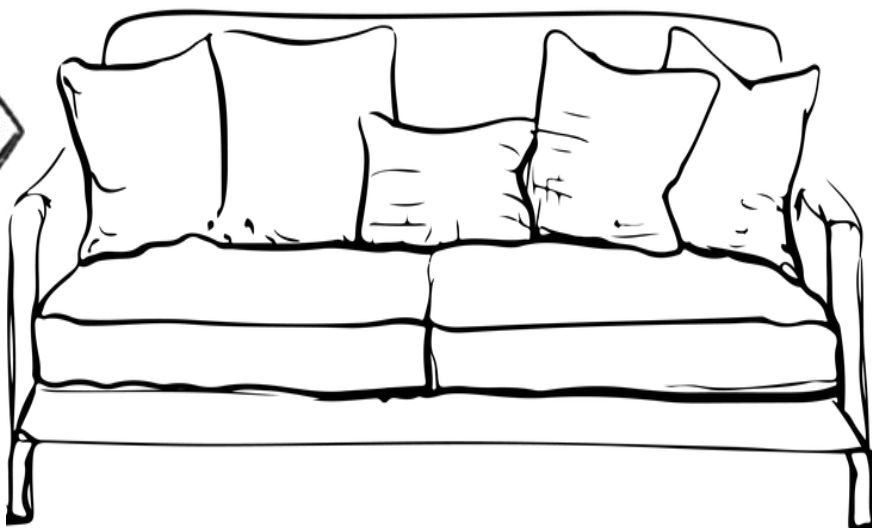

The Muslin Dress

by Philip Wilson Steer.

This artist has used pattern on the sofa and the wall behind.

Use pattern to decorate this sofa.
